Since 25 years the Shell Eco-marathon Europe is an active contribution to education as an integral element of Shell's commitment to sustainable development and mobility. The core element of Shell Eco-marathon are students from educational institutions from the whole world competing to design, build and drive a vehicle using the less amount of energy. It is an educational platform that encourages innovation, reinforces conservation and fosters the development of leading technology for greater energy efficiency. During the teams stay at Eurospeedway, between the 5th and 10th of May, the team will be accommodated by Shell at the camping area next to the circuit. The address to camping area at Eurospeedway is:
